WARNINGS

We strongly encourage you to read this manual before installation and use of the product and strictly observe the recommendation hereof.

Installation shall be carried out by qualified personnel. Mounting instruction has to be carefully observed.

For installation and use, please observe all specific regulation and laws applicable in the destination country.

Carefully read all safety regulations. Failure to observe the indications reported, can cause serious damages to third parties.

If not otherwise indicated, for tightening of screws, bolts and in general threaded rods, refer to applicable figures reported in Tab. 2 in the paragraph General Installation Instructions for GIBERTINI Antennas

NOTES ABOUT DISPOSAL

The barred bin symbol indicates that the product must be disposed of separately from other waste and cannot be thrown into the domestic waste at the end of its life. The user will therefore take the appliance at the end of its life to the suitable separated collection centres for metal parts waste in their own town. An adequate separated collection for sending of the appliance to recycling, treatment and environmentally compatible disposal helps to avoid possible negative effects on the environment and on health thus favouring the reuse and recycle of the materials of which the appliance is made of. The unauthorised disposal of the product by the user causes the application of administrative fees provided for by the regulation in force.

The producer reserve the right to change specifications to products and to documentations without prior notice.
