

Schema R012

Esempio di applicazione di un modulatore digitale con 1 ingresso RCA o HDMI+LOOP (che consente la rimodulazione dei segnali in HD) in un impianto TV. Il LOOP consente di collegare il TV senza dover aggiungere uno splitter HDMI.

Application Example of usage of a digital modulator with 1 RCA or HDMI+LOOP input (which allows the remodulation of HD signals) in a TV system. HDMI+LOOP inputs allows to connect the TV without having to add an HDMI splitter.

The products used in the quote are purely indicative, as the choice of the models most suitable depends on many variables such as, for example, the nature of the received signals (intensity, quality, reception direction, etc.), the area and the location of the building where the system will be wired, the structure of the building itself, etc. Masts, brackets and similar, cables and connectors are excluded from this quote. The prices of this quote refer to Price list 2022. For any price variation we suggest to check periodically the website www.offel.it.
